

## Ideation Phase

### Brainstorm & Idea Prioritization Template

Date	19 September 2022
Team ID	PNT2022TMID28916
Project Name	Project - Visualizing and Predicting Heart Diseases with an Interactive Dash Board
Maximum Marks	4 Marks

#### Brainstorm & Idea Prioritization Template:

#### Step-1: Team Gathering, Collaboration and Select the Problem Statement

### Brainstorm & idea prioritization

This is a brainstorming session for Visualizing and Predicting Heart Diseases with an Interactive Dash Board.

- 15 minutes to prepare
- 1 hour to collaborate
- 2-3 people recommended

Share template feedback

#### Before you collaborate

Collaboration is done among the team members

Workbooks

---

- Team gathering**  
Define who should participate in the session and confirm roles. Share relevant information or pre-work ahead.
- Set the goal**  
First, select the problem you'll be focusing on working on the brainstorming session.
- Learn how to use the facilitator tools**  
Use the Facilitator Superpowers to make happy and productive sessions.

Open activities

#### Define your problem statement

The leading cause of death in the developed world is heart disease. Therefore, there needs to be some done to help prevent the risks of having a heart attack or stroke.

8 minutes

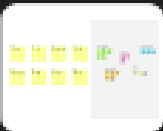

Problem

The leading cause of death in the developed world is heart disease. Therefore, there needs to be some done to help prevent the risks of having a heart attack or stroke.

Key rules of brainstorming

To set successful and productive sessions

- Keep it open
- Encourage wild ideas
- Defer judgment
- One idea at a time
- Go for volume
- Quantity over quality

Have a some inspiration?

Have a beautiful vision of the template in your mind?

### 3 Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Group all sticky notes have been grouped, give each cluster a sentence like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

45 minutes

## Step-3: Idea Prioritization

### 4 Prioritize

Use this dataset to predict which patients are most likely to suffer from a heart disease in the near future using the features given. If predicted well in advance, can provide important insights to doctors who can then adapt their diagnosis.

20 minutes

### 5 After you collaborate

You can export the model as an image or pdf to share with members of your company who might find it helpful.

Click add icon

Share the model: Share a link to the model with stakeholders to keep them in the loop about the evolution of the model.

Export the model: Export a copy of the model as a PDF or CSV to share with stakeholders, or use it in your work.

Keep moving forward

Design blueprint: Define the components of the new idea or strategy. [Open the template](#)

Customer experience journey map: Understand customer needs, motivations, and attitudes for an organization. [Open the template](#)

Strengths, weaknesses, opportunities & threats: Identify strengths, weaknesses, opportunities, and threats (SWOT) to become a plan. [Open the template](#)
